

Broad Street Resurfacing Update
(4th Street to 23rd Street)
Fremont, NE

We appreciate your patience as we continue to work on improving Broad Street. The next phase of this project involves the **placement of an asphalt overlay on Broad Street from Military Avenue to 4th Street**. This work will be completed in one day on Tuesday, October 14, 2025.

During the overlay process, you will not have access to Broad Street. We ask that you park vehicles on side streets on Tuesday, October 14, 2025 during business hours. Side street barricades will be removed at the end of the day and normal traffic flow will resume on Wednesday, October 15, 2025. Broad Street will remain closed from Military Avenue to 23rd Street.
